*A CRM lets you store and manage prospect and customer information in one central location. Examples are Velocify or Salesforce. You only need to report your CRM to us as a third-party processor if the CRM is also providing staffing for your campaign. If the platform will only be accessed and used by the staff of your company in executing your campaign, then the CRM is not considered a third-party processor.

* Inbound Lead Capture - If you will be supplying the list of names received from your prescreen campaign to a third party to compare against prospects calling in, please include the 3rd party information.

Each third-party processor utilized by Company will only receive the consumer information it requires to make a "firm offer of credit or insurance" (as defined in the Fair Credit Reporting Act, as amended) on behalf of Company. No analysis will be performed by any such third-party processor on such information and such third-party processor may not incorporate such information into any prospect database that will be kept by such processor.
